

About The College

Devineni Venkata Ramana & Dr. Hima Sekhar MIC College of Technology established in 2002, is a premier engineering institute in the self-financing category in Andhra Pradesh (INDIA). It was started by MIC Electronics Ltd., an MNC pioneered in making the giant LED screens and offering the solutions to the global telecom industry; with a mission to promote quality technical education, bridge the gap between the industry and Institution and give the nation self reliant engineers and entrepreneurs. The Institute is located in sylvan surroundings at Kanchikacherla, 35km away from Vijayawada on NH-9. The Institute is affiliated to JNTUK Kakinada, approved by AICTE and also an ISO 9001:2010 certified Institution. The Institute is offering 6 U.G Programmes in Engineering with 780 intakes and 9 P.G Programmes M.Tech, MBA & MCA with 438 intakes. The Institute is also offering Diploma in Civil, Mechanical, EEE and ECE departments with an annual intake of 240. The Institute is one of the most sought after colleges for the pursuit of quality technical education in A.P.

About The Department

The Computer Science & Engineering department was started with B.Tech in 2002 with an annual intake of 60. Now the department is offering B.Tech with 180 intake and M.Tech (CSE) with 36 intake. The department is striving for the quality of technical education in the field of Computer Science since its inception. The department has well qualified, experienced & dynamic faculty along with experienced & skilled technical supporting staff who spearhead the process of achieving the vision of the department. The department is well equipped with the latest computer labs & infrastructure. Every year, our students publish technical papers in various national & international technical symposiums. A good number of students are being placed through campus placements in major IT, ITES and core MNC companies every year.

About The Programme

This workshop is aimed at addressing the current challenges and trends of various disciplines of Computer Science. Eminent speakers will help to find directions and solutions for various research problems. The multi disciplinary nature of this workshop would open up frontiers for new research ideas to come up, make serious researchers to explore and examine problems of research in different dimensions.

Topics Covered in the workshop

Resource persons

Dr. Naeem Hanoon
University Technology Mara
Shah Alam, Malaysia.
Topic: Artificial Neural Network

Dr. B.K.Panigrahi
Indian Institute of Technology Delhi,
New Delhi, INDIA
Topic: Meta-heuristic Optimization for Engg Applications

Dr S K Udgata
University of Hyderabad
Hyderabad.
Topic: Intelligent Algorithms for Wireless Sensor Networks

Mr Aninda Bose
Senior Publishing Editor with Springer India Pvt.
Ltd.
New Delhi, INDIA
Topic: How to write for and get published in scientific journals

Dr. Arunkumar Thangavelu
School of Computer Science & Engineering
